A horizontal bar chart titled "U.S. should take action to address climate change" showing the percentage of respondents who believe the U.S. should take action to address climate change, broken down by age group. The x-axis represents the percentage, ranging from 0 to 100. The y-axis lists the age groups. The bars show that the percentage of respondents who believe the U.S. should take action increases with age, starting at 35% for the youngest group and reaching 85% for the oldest group.
