

--

A horizontal bar chart with a light blue background and white grid lines. The y-axis lists age groups from '18-29' at the top to '65+' at the bottom. The x-axis represents percentages from 0 to 100, with major tick marks every 20 units. Each age group has a corresponding light gray horizontal bar. The length of the bars increases as the age group increases, starting at approximately 35% for the youngest group and reaching approximately 85% for the oldest group.

Age Group	Percentage
18-29	35
30-39	40
40-49	45
50-59	50
60-69	55
70-79	60
80-89	65
90-99	70
100+	75
65+	85

A horizontal bar chart with a light blue background and horizontal grid lines. The chart displays the percentage of respondents who believe the current government is responsible for the economic crisis, broken down by gender. The x-axis represents the percentage from 0 to 100, with labels at 0, 20, 40, 60, 80, and 100. The y-axis lists the gender categories. The bars are light gray. The data shows that a higher percentage of men (78%) than women (68%) believe the current government is responsible for the economic crisis.

Gender	Percentage
Men	78%
Women	68%

Year	Percentage
2013	35%
2014	38%
2015	42%

100+	75
65+	85

A horizontal bar chart with a light blue background and white grid lines. The y-axis lists age groups from '18-29' at the top to '65+'. The x-axis represents percentages from 0 to 100, with major tick marks every 20 units. Each age group has a corresponding light gray horizontal bar. The length of the bars increases as the age group increases, indicating that older respondents are more likely to believe the U.S. should take more action on climate change.

--

A horizontal bar chart with a light blue background and a dark blue top border. The chart displays the percentage of respondents who believe the U.S. should take more action to address climate change, categorized by age group. The bars are light gray and are ordered from youngest to oldest age group. The x-axis represents the percentage, ranging from 0 to 100, with major grid lines every 10 units. The y-axis lists the age groups. The data shows that the percentage of respondents who believe in taking more action increases with age.

Age Group	Percentage
