A horizontal bar chart showing the percentage of respondents who believe that the U.S. should take action to address climate change, broken down by age group. The x-axis represents the percentage, ranging from 0 to 100. The y-axis lists the age groups. The bars show that the percentage of respondents who believe the U.S. should take action increases with age, starting at 35% for the youngest group and reaching 85% for the oldest group.
